MESSAGES

FOUNDER OF PAKISTAN

QUAID-E-AZAM

MUHAMMAD ALI JINNAH

25 DECEMBER

I think we can safely claim that we have organized the Musalmans fairly well politically in the department of economics; however, we are at the zero point. I am sure your deliberations will be in the directions of awakening the commercial and industrial consciousness of the Muslim nation.

There are some people who say that the Pakistan areas are more or less devoid of mineral resources and that economically we shall not be able to exist. I do not accept one view or the other in its exaggerated form. All that I can say as a layman is that Pakistan will not be bankrupt; it will be a powerful state. Address, AIML Planning Committee, Arabic College, New Delhi, 5 November 1944.

Dr. Muhammad Allama Iqbal

Spiritual Father Of Pakistan

I would like to see the Punjab, North-West Frontier Province, Sindh and Baluchistan amalgamated into a single State. The formation of a consolidated North-West Indian Muslim State appears to me to be the final destiny of the Muslims.

Presidential address 1930, Allahabad

Allama Iqbal (November 9, 1877 – April 21, 1938), widely known as Muhammad Iqbal, was a poet, philosopher, politician, as well as an academic barrister and scholar in British India who is widely regarded as having inspired the Pakistan Movement. He is called the "Spiritual Father of Pakistan". He is considered one of the most important figures in Urdu literature, with literary work in both Urdu and Persian.

ABRISH LEATHER GOODS

Message from the Chairman Pakistan Tanners Association

It is with great pride and renewed energy that I welcome all exhibitors, buyers, and industry professionals to the **11th Pakistan Mega Leather Show (PMLS) 2026**, taking place from **24–26 January 2026 at the Lahore Expo Centre**.

PMLS has become the heartbeat of Pakistan's leather industry a powerful platform where innovation meets opportunity and where Pakistan confidently presents its strength to the global market. This 11th edition is not just a exhibition; it is a celebration of resilience, craftsmanship, sustainability, and the progressive spirit of our leather sector. Pakistan's leather industry continues to evolve with modern technology, value-added manufacturing, and global compliance at its core. Our tanners and manufacturers are not only meeting international standards but are setting new benchmarks in quality, traceability, and environmental responsibility. PMLS 2026 reflects this momentum by connecting our industry with global buyers, trend setters, and decision-makers, opening doors to new partnerships and expanded exports. I commend all exhibitors for their commitment, confidence, and contribution to strengthening Pakistan's position in the international leather arena. I also applaud the Pakistan Tanners Association and the organizers for their tireless efforts in delivering a world-class exhibition that truly represents the scale and potential of our industry.

Let us use this platform to exchange ideas, explore innovations, secure new business, and shape a stronger future for Pakistan's leather sector.
